TRUFLO® TNP Series - DID YOU KNOW?

Our **TNP Series**, non-metallic magnetic drive pump, is directly interchangeable with ANSIMAG K+ and KM Series pumps. Except for a couple proprietary parts, the internal components are fully compatible with these ANSIMAG series.

The TNP Series has also stayed true to the one piece impeller and outer drive design, keeping it simple and affordable for all our customers makes for smooth running operations. For other product interchange questions of TRUFLO® pumps, please **consult factory**.

TRUFLO® Product Interchangeability (DAP, DSP, MAP)

Truflo offers component interchangeability between our own products. The **DAP**, **DSP**, and **MAP Series** all use many of the same parts. The DAP and MAP Series both use the same casing. The DAP and DSP Series share the same impeller, power frame and end cover.

This component interchangeability allows for easy modifications to a process or application without purchasing all new pumps. Along with the **TNP Series**, the MAP Series can accommodate closed coupled and long coupled configurations.

TRUFLO® Pump Metallurgy Availability

At **Truflo**, we offer a wide range of alloys for our product lines. The **MAP Series** is available in WCB, CF8, CF8M, CA6NM, CD4M and CN7M materials. The **DSP Series** is available in WCB, CF8, CF8M and CD4M. Our **DAP Series** is available in DCI, WCB, CF3, CF3M, CF8, CF8M, CA6NM, CD4M, CN7M, Hastelloy B & C, Nickel, Titanium, and Zirconium.

These available materials of construction allow for our product line to cover a wide range of demanding applications.

Truflo Pumps is now on LinkedIn and Facebook

Truflo Pumps can now be found on **LinkedIn** and **Facebook**. Follow our pages to receive project information, **company news**, product updates and more. We always strive to improve our customer service and our social media pages allows us to do just that.

Truflo can also provide support through LinkedIn and Facebook. Please feel free to send us a message or comment on our updates. We can still be **contacted** directly by **email** and through our **website**, as well.
